

# **Kverneland 150 B/S Variomat** mounted reversible ploughs 3-5 furrows

*Light*

*Robust*

*Easy to handle*

# Kverneland 150 B/S Variomat

Light, Robust, Easy to handle

## **Kverneland 150 B/S Variomat**

**Light and robust mounted reversible ploughs for tractors up to 150 hp.**

**Spring leaf auto-reset system (S version) or shearBolt (B version). High performance in various soils & surface conditions.**

- Low lift requirements, easy to pull, low fuel consumption
- Easy furrow width adjustments : Variomat
- Simple to adjust and to operate

## **Kverneland Variomat**

- for Optimal match between tractor, implement and soil conditions.
- Increases capacity by more than 40% (12-20").
- Cost efficient : when output increases by 40%, fuel consumption/ha reduces significantly.
- Easier to work straight and close to obstacles like fences...
- Smart working width adjustments from tractor seat (optional memory system)
- Self adjusting pulling line.

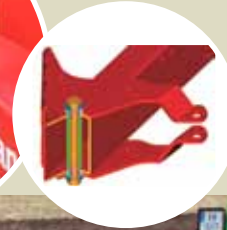

# Kverneland 150 B/S Variomat

## Easy setting adjustments

Kverneland Auto-Reset.  
Pre-adjusted springs.  
No maintenance !

Variomat. Working width adjustable  
from tractor seat (12-20")  
No maintenance !

Headstock  
"150 plough serie"  
for tractors up  
to 150 hp.  
Optional quick  
coupling cross  
shaft.

Notched disc  
coulters easily  
adjustable via  
a central bolt.

Independent  
left/right angle  
adjustments.

Skimmer.  
Easy to adjust via reference  
marks on the arm.

Depth wheel.  
Independent  
left / right settings.

Turnbuckle for the pulling line  
pre- setting. Parallelogram linkage  
allowing easy 1st furrow adjustment.

## Even more strength

### KVERNELAND TECHNOLOGY :

- Unique Design and Heat treatments to the complete plough
- Best light weight/robustness ratio
- Unsurpassed quality and wear resistance
- 130 years of experience in steel technology !

### Headstock "150 plough serie"

"One piece concept". Robust heat treated 110 mm Ø hollow main shaft. Designed for maximum strength and optimum hose lay out. Cross shaft cat. II or III with option quick coupling.

Kverneland Steel Heat Treatment Technology applies to the complete plough !

### Protections : auto-reset or shearbolt

Well proven Kverneland leaf spring auto-reset system. Unique system that withstands the toughest forces and guarantees a longer life to the plough and tractor. Optimum ploughing performance : each body releases independently.  
No maintenance !

Heat treated shearbolts protect the heat treated beams (3400 kp)

### Frame 150x150 mm

Extendable frame by one furrow (max 4-5 furrow ploughs)

Robust induction heat treated frame to the same exacting standards as all kverneland ploughs !

# Kverneland 150 B/S Variomat

## Adapts to difficult working conditions
