

MB-R500

MB-R500

The new MB-R500 is the smallest cutter head of MB Crusher range. **It weighs only 300 kg** and can be installed on mini and midi excavators from 3 to 11 tons, on skid steer loaders and backhoe loaders from 3 to 8 tons.

Its powerful cutter head has a **diameter of 500 mm** and grinds with extreme precision. Its drum can be replaced on site in less than an hour, without the need to take the unit to a specialised workshop.

It is easy to use and makes work on different sites easy, especially those that require precision.

ACCESSORIES

- CUTTER BODY ROTATION KIT
- CUTTING DEPTH ADJUSTMENT KIT
- DUST SUPPRESSION KIT
- DRUM COVER KIT
- TEMPERATURE REDUCTION KIT
- OIL TEMPERATURE REDUCING DEVICE
- FULL SET DRUM KIT
- WARRANTY EXTENSION GOLD 24
- SUGGESTED SPARE PARTS KIT

AREAS OF APPLICATION

- TUNNELS
- PIPING
- URBAN JOB SITES
- ROAD WORKS
- PROFILING OF ROCK AND CONCRETE WALLS
- DEMOLITION
- EXCAVATION OF EARTH, ROCK, ASPHALT, CEMENT
- CREATION OF FOUNDATIONS
- AGRICULTURAL AND FOREST AREAS
