

MULTILIFT XR 5S

XR LIGHT-RANGE HOOKLIFTS

THE VERSATILITY EXPERT OF SMALL HOOKLIFTS

MULTILIFT XR 5S, a member of our XR family, gives your 7.5 tonne GVW truck more possibilities. Easy handling and a wide range of possible load carriers bring enhanced versatility. Just swap the body and go.

Small in size but a giant in performance

The MULTILIFT XR 5S offers an ingenious design of the gripping hook. Detaching the body onto the hook happens virtually automatically. Simply reverse to the body and lift it. Nothing could be easier. Intuitive control and smooth movements master loading and offloading and simplifies tipping of bodies. Low weight with great lifting power allows for a wide variety of uses – far beyond those of fixed flatbeds or tipper bodies.

Increased versatility and larger payloads

Using the latest 3D-CAD methods and modern production technology to design and manufacture the XR Light-Range, we have minimised the welding needed in construction to give you a stronger structure. The exceptional low weight to high strength ratio enables larger payloads, enhances the versatility of the vehicle and maximises its rentability.

Safety is key

As in all MULTILIFT demountables, safety is a key priority in the XR-series. Safety features include load-holding valves directly on the cylinders and a tipping lock mechanism. The XR-series meets all the minimum requirements of the EU's Directive on the Safety of Machinery.

Technical data

Type	XR 5S		
Capacity (kg)	5000		
Gvw of the vehicle (t)	7.5		
Container length (internal) (m)	3.0 - 4.0	3.5 - 4.5	4.0 - 5.0
G-length (mm)	3250	3650	4150
Equipment weight (kg)	650	690	730
Tipping angle (°)	49	49	48
Hook height (mm)	930		
Body level (mm)	160		
Max. operating pressure (mpa)	30		
Recommended oil flow (l/min)	20 - 25
